

Google Indexing Checklist — Penny Lane

INTERNAL — Creativecoders Agency Reference Only

What Brandon needs to do before Creativecoders can complete setup

Brandon's Google Account: brandon.boyd.po@gmail.com (used for both Search Console and Business Profile)

Quick Links

Google Search Console: <https://search.google.com/search-console/welcome>

Google Business Profile: <https://business.google.com/create>

Cloudflare DNS: <https://dash.cloudflare.com>

What You Are Waiting On From Brandon

Task	Brandon's Action	Your Action
GSC — Login & Domain setup	Signs in at https://search.google.com/search-console/welcome using brandon.boyd.po@gmail.com !' adds pennylanehomesolutions.com as Domain	No action yet — wait for Brandon to send you the code
GSC — Verification Code	Brandon copies the TXT code from GSC and sends it to creativecodertech@gmail.com	Log in to https://dash.cloudflare.com !' add a new TXT record with the code !' notify Brandon it is done
GSC — Click Verify (Brandon does this)	Brandon goes back to his open GSC screen and clicks Verify — he is the one holding the GSC session	No action — you are not logged into GSC at this point. Wait for Brandon to confirm it is verified.
GSC — User Access (required)	Settings !' Users and permissions !' Add user !' creativecodertech@gmail.com !' role: Owner Without this Creativecoders cannot manage Search Console on Brandon's behalf	Confirm you can see the property in your GSC dashboard — then submit sitemap and request indexing
Google Business Profile	Signs in at https://business.google.com/create using brandon.boyd.po@gmail.com !' claims or creates "Penny Lane Home Solutions" !' completes verification !' adds creativecodertech@gmail.com as Manager	Add services, photos, hours, website link, set up review response workflow

What You Handle After Brandon Grants Access

- Add DNS TXT record in Cloudflare once Brandon sends you the code !<https://dash.cloudflare.com>
- Notify Brandon the TXT record is saved so he can return to GSC and click Verify
- Submit sitemap.xml in GSC !' Sitemaps (after Brandon grants you Owner access)
- Run URL Inspection !' Request Indexing on the homepage
- Add review schema markup to the site (Task #36)
- Add real Thumbtack + TaskRabbit profile links (Task #35)
- Monitor GSC weekly — Coverage tab for errors, Performance for clicks and impressions
- Monitor Core Web Vitals monthly — flag anything showing "Poor" status

Ownership Rule — Always Follow This

Agency Rule:

Brandon (brandon.boyd.po@gmail.com) owns both accounts permanently. Creativecoders (creativecodertech@gmail.com) is added as Owner/Manager only to do the work. If the client relationship ends, Brandon removes the email — he keeps everything, Creativecoders loses access cleanly.

Never register a client's Search Console or Google Business Profile under the agency's Google account.

Everything is blocked until Brandon completes his steps.

Send him the client-facing PDF to get started.
